

# CREMLIN PLUS

Connecting Russian and European Measures for Large-scale Research Infrastructures

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 871072

## ABOUT

CREMLINplus is a flagship project dedicated to enhancing the **European-Russian collaboration** in the domain of research infrastructures and megascience projects.

## AIMS

- Fostering European-Russian scientific and technical **collaboration** along five Russian megascience projects
- Developing **access schemes** to Russian research infrastructures that facilitate also European utilisation, alongside Russian utilisation
- Creating a comprehensive **base of knowledge** and expertise for Russian and European research infrastructure managers and scientists at various levels

## PROJECT FACTS

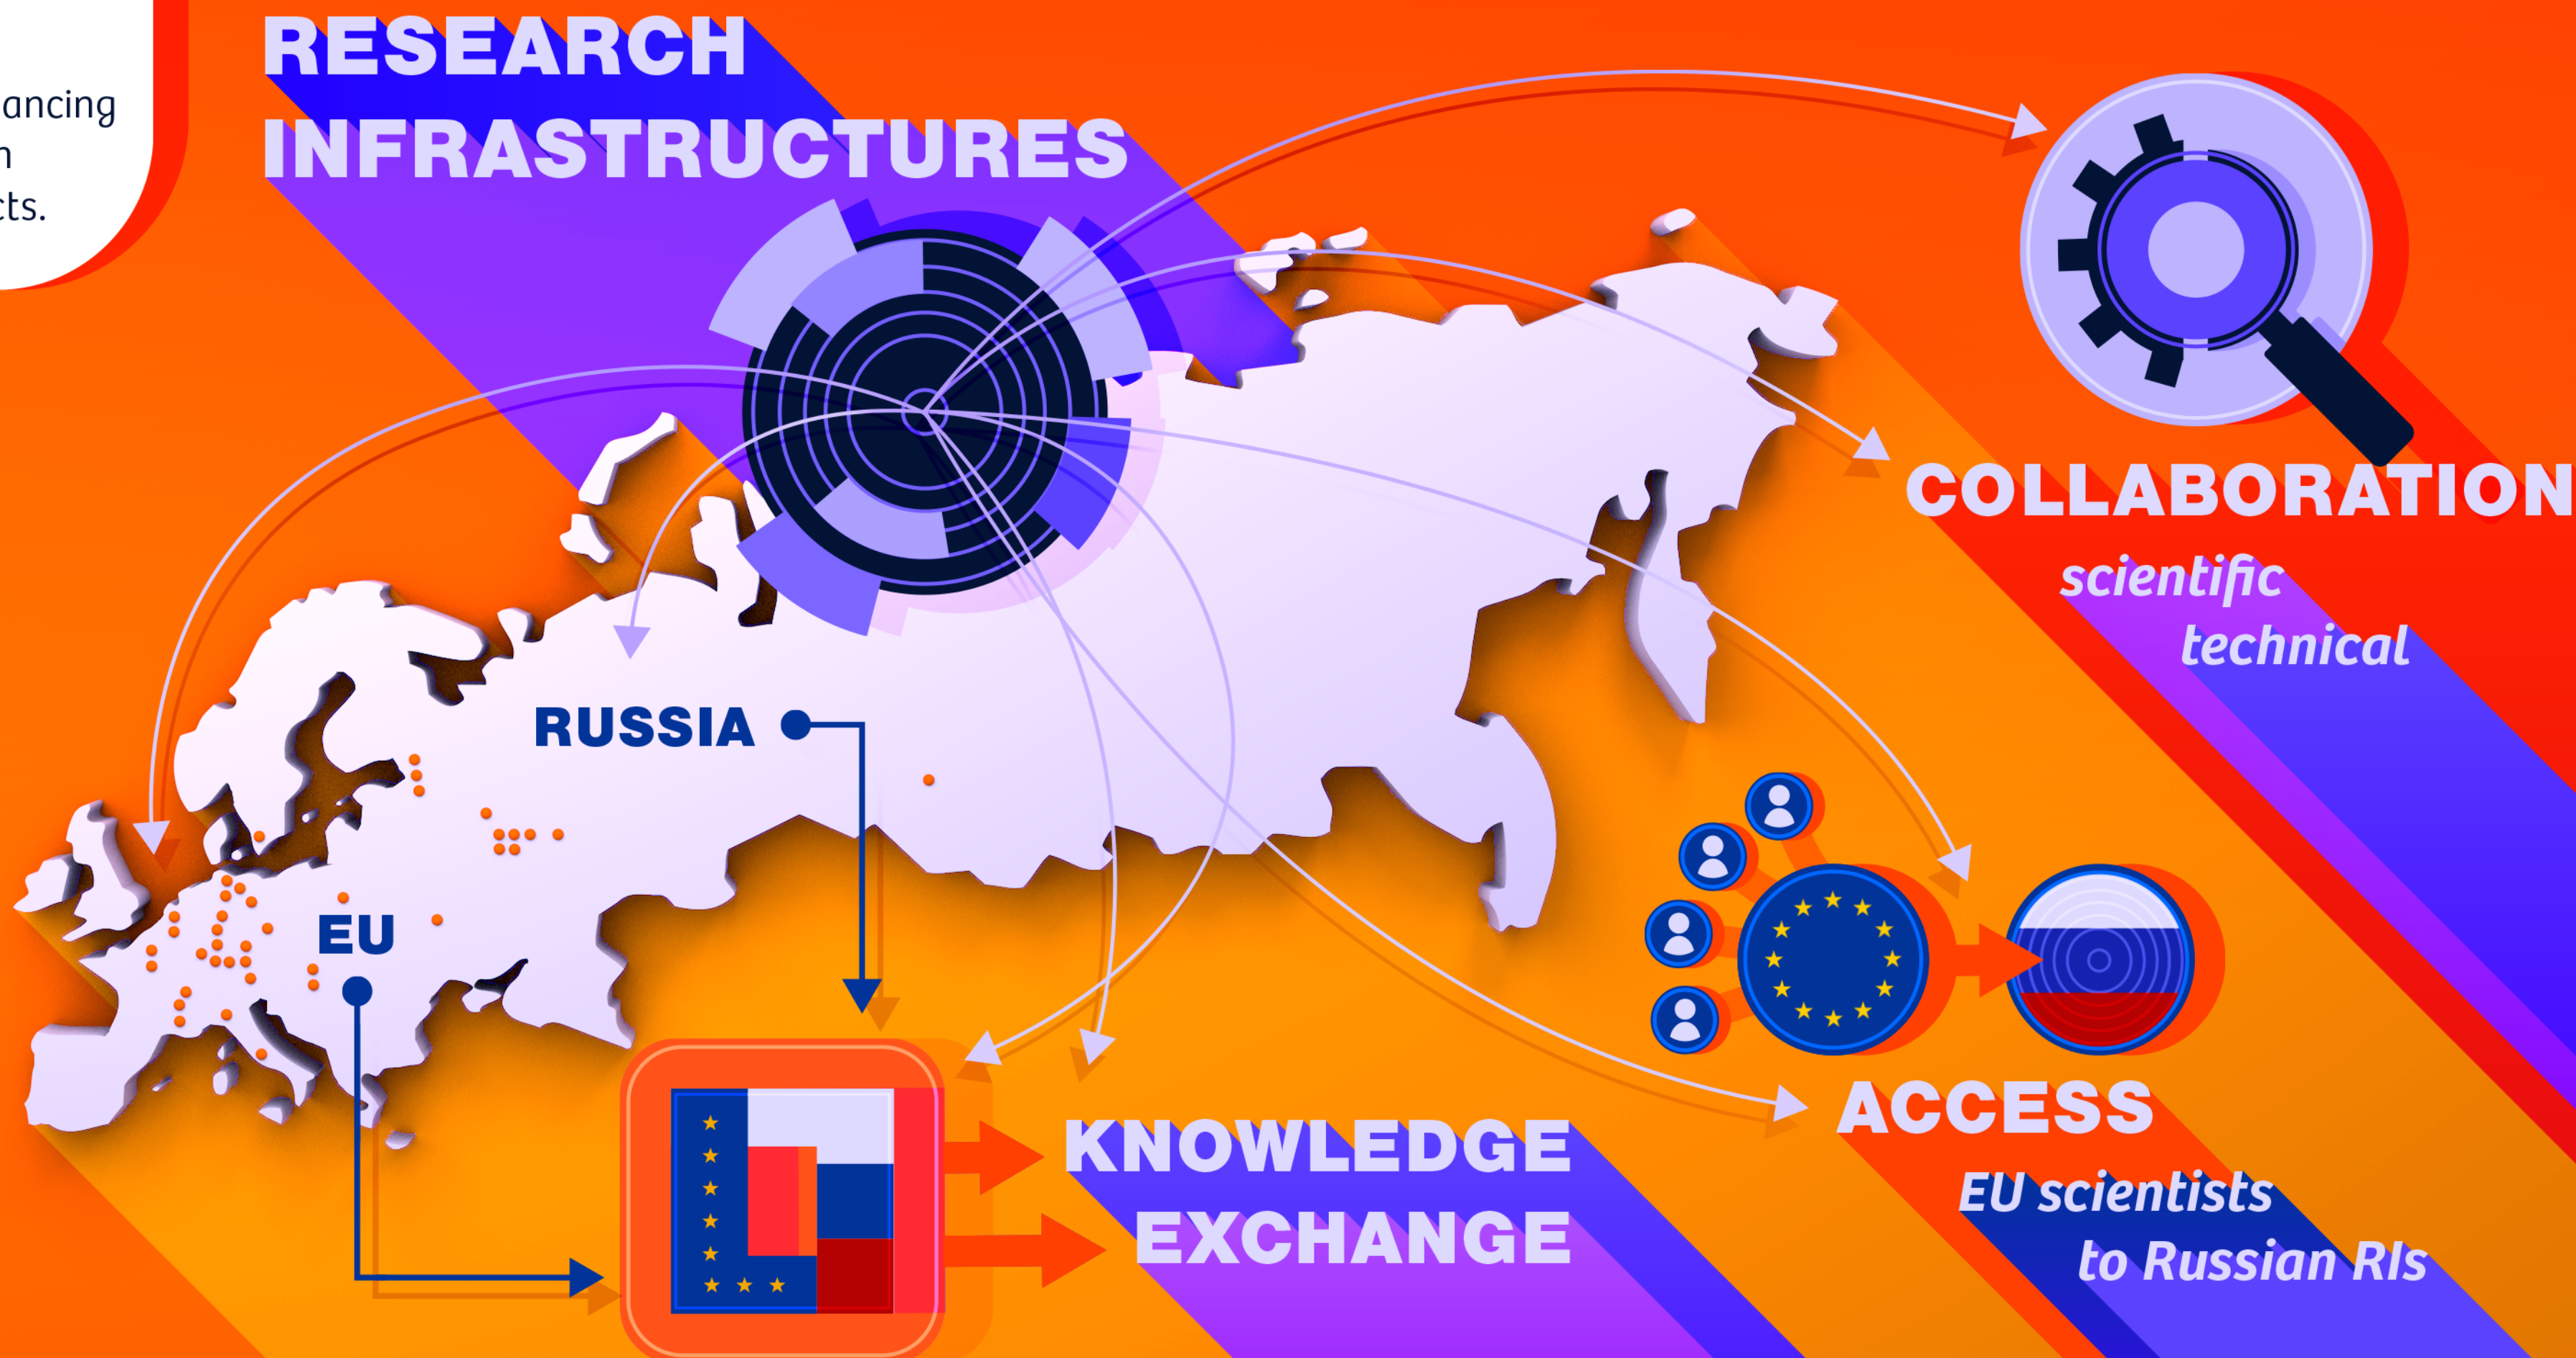

● **Consortium: 35 partners** from the EU MS/AC and Russian Federation

**Project duration: 4 years**  
02/2020 – 01/2024

## WORK PROGRAMME

Technical WPs  
Non-technical WPs

WP1 MGT: **Management and Dissemination**  
WP2 NICA: **Collaboration with ion collider NICA**  
WP3 PIK: **Collaboration with neutron source PIK**  
WP4 USSR: **Collaboration with synchrotron USSR**  
WP5 SCT: **Joint technology development around SCT and future lepton colliders**

WP6 XCELS: **Joint technology development around high-power laser XCELS**  
WP7 DETEC: **Joint development of detector technologies**  
WP8 TNA: **Access to Russian RI**  
WP9 TRAIN: **Staff exchange and training for RI management**  
WP10 LTS: **Joint long-term sustainability of RIs**
